                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Sequence 1, Application US/09055913

Sequence 1, Application US/09055913

Patent No. 6017898

APPLICANT: Zbigniew Pietrzkowski, Gordana Olbina and Dariusz Cieslak

APPLICANT: Zbigniew Pietrzkowski, Gordana Olbina and Dariusz Cieslak

APPLICANT: Zbigniew Pietrzkowski, Gordana Olbina and Dariusz Cieslak

TITLE OF INVENTION: Inhibition of Tumor Growth by Antisense

TITLE OF INVENTION: Oligonucleotides for Il-8 and Il-8 Receptor

NUMBER OF SEQUENCES: 6

CORRESPONDENCE ADDRESS:
ADDRESSEE: Crockett & Fish

STREET: 3000 S. Augusta Court

CITY: La Habra
